Deploying Cisco Unified Contact Center Enterprise (DUCCE)

ORDER FULL VERSION

<https://killexams.com/pass4sure/exam-detail/600-455>

Question #77

A Cisco Unified Contact Center Enterprise solution is designed with geographic redundancy for the central controllers (with separate call routers and loggers). If

Call Router Side A has device majority and its Ethernet private network NIC fails, which two events occur? (Choose two.)

- A. Both sides go out of service for small period of time, Call Router Side A goes active, and Call Router Side B goes idle
- B. Both sides go in service for small period of time, Call Router Side A goes active after negotiations with Call Router Side B, Call Router Side B goes idle
- C. There is no ability to make ICM configuration changes at Side B
- D. The Call Router Side A stays active, while Call Router Side B goes idle
- E. The Call Router Side B stays active, while the Call Router Side A goes idle

Answer: CD

Question #78

Which statement about the Cisco UCCE solution in the virtualized environment is true?

- A. VMware NIC teaming whether in active-active or active-standby configuration on the UCS B/C series is supported
- B. Nexus 1000V virtual distributed switch can be used but only for 500 agent deployment model
- C. Cisco UCS VIC can be used on UCS C series TRC models
- D. Spec-based virtualized servers based on Intel E5 26xx cpu family at speed 2.40 GHz is supported

Answer: D

Question #79

Which setup is correct when you configure the Cisco UCS B VICs to reach the Fabric Interconnect Switches for the Cisco UCCE on UCS B deployments?

- A. Disable the Fabric Failover only when the UCS B FI connects to a Disjointed L2 domain in the upstream network
- B. Enable the Fabric Failover to reach both Fabric Interconnect A and B in HA paths
- C. Disable the Fabric Failover option.
- D. Enable the Fabric Failover only when the UCS B FI connects to a Common L2 domain in the upstream network

Answer: C

Question #80

In a Cisco Unified Contact Center Enterprise deployment with geographically redundant central controllers, a new site is added with new redundancy requirements for Administration. Which option is the recommended configuration?

- A. 1 - Primary AW, 1 - Secondary AW
- B. 1 - Primary AW, 1 - Administration Client
- C. 1 - Secondary AW, 1 - Administration Client
- D. 2 - Primary Administration Client, 1 - Secondary Administration Client

Answer: A

Question #81

Which two system responses are valid if the Cisco UCCE (centralized deployment with remote branches which includes agents, phones and desktops only) and the remote branch lose the public network connection to both of the data centers? (Choose two.)

- A. The Cisco Finesse server automatically signs the agent out of the system
- B. The voice gateway detects the loss of connection to the Cisco Unified CVP call server. The voice gateway then executes local bootstrap

- TCL script, answers the call, and forwards it to the hunt group
- C. Agents continue to have access to historical reports
- D. The active call that arrived at the local PSTN connection and was answered by agent at that site remains active
- E. The voice gateway detects the loss of connection to the Cisco Unified CVP call server. The voice gateway then connects to the communication manager

Answer: AD

Question #82

In Cisco Finesse 10.0(x), Which is the last operation a supervisor needs to perform in order to intercept the call?

- A. after a supervisor has transferred the call
- B. after a supervisor has selected a talking agent for monitoring
- C. after a supervisor has started monitoring a call
- D. after a supervisor has barged into a call

Answer: D

Question #83

Under which circumstance(s), can the Public/Visible network share the WAN with the Private network in the Cisco UCCE Clustering over the WAN deployments?

- A. SONET WAN with multiple edge devices per Data Center to connect to the SONET ring
- B. under no circumstances
- C. MPLS WAN with a single edge device per Data Center that connects to multiple 1 Gbps WAN circuits and the failover between the WAN circuits is less than 500 ms.
- D. MPLS WAN with multiple 1 Gbps WAN circuits and a fast 100 ms Round Trip latency between Data Centers

Answer: B

Question #84

Which two options are the maximum number of concurrent reports supported by CUIC? (Choose two.)

- A. Up to maximum agent capacity for historical report using live data
- B. 100 concurrent Historical reports
- C. 800 concurrent Real-time reports
- D. 400 concurrent Real-time reports
- E. 400 concurrent Historical reports

Answer: AD

Question #85

Which three statements about the Cisco Unified CVP Post Call Survey (PCS) are true? (Choose three.)

- A. The mapping of a dialed number pattern to a PCS number enables the PCS feature for the call
- B. PCS lets you schedule a call to the caller at a later time
- C. For reporting purposes, the PCS call has the same call key information
- D. The value of the user.microapp. is PCS controls whether the call is transferred to the PCS number
- E. SIP REFER call flow is required to trigger PCS
- F. The call context for the PCS includes GUID and all context up to the point where the call is transferred to the agent. Context that the agent creates after the transfer is not included in the PCS context

Answer: ADF

Question #86

Which statement about when you deploy Cisco UCCE 12,000 agent deployment model where each physical CPU core is mapped 1-1 with a vCPU is true?

- A. You can overload/over-subscribe the vCPU/cores on the UCS servers as long as the total CPU reservations are within 65 percent of the available CPU of the host (there is spare room in CPU computing resources).
- B. You cannot overload/over-subscribe the vCPU/cores on the UCS servers even if you do not over-subscribe the computing resources in MHz on each server host.
- C. You can overload/over-subscribe the vCPU/cores on the UCS servers as long as the memory reservations are within 80% of the available memory of the host.
- D. You can overload/over-subscribe the vCPU/cores on the UCS servers as long as you do not over-subscribe the computing resources in MHz on each server

Answer: B

Question #87

Refer to the exhibit.

Queue Statistics									
Queue Name ▲	#Calls	Max Time	Ready	Not ready	Active			Wrap up	
					In	Out	Other	Ready (Pending)	Not Ready (Pending)
First PQ	0	00:00:00	0	1	0	0	0	0	0
skillgroup 1	0	00:00:00	0	1	0	0	0	0	0
skillgroup 2	0	00:00:00	0	1	0	0	0	0	0
skillgroup 3	0	00:00:00	0	1	0	0	0	0	0

In a Cisco Finesse 10.0(x) deployment, in Supervisor Gadget under the Queue Statistics pane, which option describes what the Other column represents?

- A. number of agents assigned to the queue who are on inbound calls
- B. number of calls handled by the agents associated with that queue
- C. number of agents assigned to the queue who are on outbound calls
- D. number of agents assigned to the queue who are on internal consult calls

Answer: D

Question #88

Which three options are valid when Cisco Unified Customer Voice Portal comprehensive call flow and survivability service handles SIP REFER? (Choose three.)

- A. SIP trunk alternate destination routing (ADR) must be disabled for REFER
- B. An application-controlled alternative is to set an ECC variable (user.sip.refertransfer) to the value y in the Unified ICM script
- C. Router requery on a failed SIP Refer transfer where the survivability service is not handling the SIP Refer request
- D. Direct Refer transfer using label works only if Send To VRU node is NOT used before the Refer
- E. Unified ICM sends Unified CVP a routing label with a format of rfXXXX
- F. Standalone Cisco Unified CVP with ICM Lookup label

Answer: BCE

Question #89

Which two features does the SIP Proxy provide when deployed with Cisco UCCE, Cisco Unified CVP? (Choose two.)

- A. demarcation point between networks
- B. centralized dial plan

- C. SIP VXML voice browser
- D. N+1 or N:N redundancy
- E. load balancer for HTTP and SIP

Answer: BD

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
