CIPS aren't going to expect you to know the 9 principles of the WIETA but you should be able to guess what they are, as they're pretty much the same as the ILO, ETI and other similar ethical associations. Option 4 is incorrect because no workplace is ever going to be free from risk.

Option 5 is incorrect because sick pay is decided at government level in each country rather than by ethical organisations.

- C. organisations are mandated to have an Environmental Policy
- D. All companies use this for is greenwashing
