# ISO-31000-CLA

*ISO 31000 - Certified Lead Risk Manager*

### Question: 18

The organization's resources and internal support are \_\_\_\_\_ the risk management strategy.

- A. adjustable to match
- B. inputs in the development of
- C. metrics used to measure the value of
- D. outcomes of the development of

### Answer: B

Explanation:

According to page 15 of source 3, the development of a risk management strategy takes into account the organization's resources and internal support. These resources include factors such as human, capital, and technological resources; organizational structure, culture, and governance; communication and consultation mechanisms; and support from senior management and leadership. These inputs have an impact on the feasibility and effectiveness of the risk management strategy.

### Question: 19

Risk management is tailored.

- A. True
- B. False

### Answer: A

Explanation:

Risk management is tailored<sup>4</sup>. Tailored means that risk management takes into account the specific needs, objectives, and characteristics of each organization and its context.

### Question: 20

When an operational area develops a treatment for a critical risk, the risk management professional MUST

- A. add the risk to the risk map.
- B. communicate the treatment plan directly with internal audit.
- C. evaluate the dollar savings associated with the treatment.
- D. evaluate the impact upon other areas.

### Answer: D

Explanation:

When an operational area develops a treatment for a critical risk, the risk management professional must evaluate the impact upon other areas<sup>3</sup>. This helps to ensure that the treatment does not create new risks or adversely affect other

objectives.

### Question: 21

The accuracy and reliability of the risk assessment should be identified as clearly as possible.

- A. True
- B. False

### Answer: A

Explanation:

The accuracy and reliability of the risk assessment should be identified as clearly as possible<sup>1</sup>. This helps to communicate the level of confidence in the risk assessment results and to inform decision-making.

### Question: 22

Treatment plan becomes a living document of defining the direction of the risk treatment and being able to monitor progress against the plan.

- A. True
- B. False

### Answer: A

Explanation:

Treatment plan becomes a living document of defining the direction of the risk treatment and being able to monitor progress against the plan<sup>3</sup>. Treatment plan helps to ensure that risk treatment actions are aligned with the changing context, objectives, and stakeholder expectations.

### Question: 23

Who serves as the principal adviser to the CEO, business unit heads, and critical function heads on risk matter?

- A. Chief Risk Officer (CRO)
- B. Chief Information Officer (CIO)
- C. Quality Auditor (QA)
- D. Risk Owner (RO)

### Answer: A

Explanation:

Chief Risk Officer (CRO) serves as the principal adviser to the CEO, business unit heads, and critical function heads on risk matter. CRO leads the development and implementation of the organization's risk management framework and

process.

### Question: 24

Which of the following ensures that uncertainty is managed so the organization can meet its objectives?

- A. Extended risk management
- B. Enhanced risk management
- C. Evasive risk management
- D. Avoidance risk management

**Answer: B**

Explanation:

Enhanced risk management ensures that uncertainty is managed so the organization can meet its objectives<sup>4</sup>. Enhanced risk management involves applying a systematic and logical process to identify, analyze, evaluate, treat, monitor, review, and communicate risks.

### Question: 25

ISO 31000:2018 risk management process is \_\_\_\_\_

- A. descriptive
- B. prescriptive
- C. visionitive
- D. cursive

**Answer: A**

Explanation:

ISO 31000:2018 risk management process is descriptive<sup>6</sup>. This means that it provides guidance on what should be done for effective risk management, but not how it should be done. The process can be customized to any organization and its context.

### Question: 26

New definition of risk under ISO 31000 and 31010 is:

- A. Danger that injury, damage, or loss will occur
- B. Possibility of investment loss
- C. Probability of loss to an insurer
- D. Probability of an event that will have an impact on objectives

**Answer: D**

Explanation:

According to ISO/IEC Guide73 (2009), clause 1., risk is defined as "the effect of uncertainty on objectives". This definition applies to both ISO/IEC Guide73 (2009) and ISO31000 (2018), which are standards for risk management terminology and principles respectively.

### Question: 27

Which type of risk framework is expected to improve efficiency by aligning strategy, processes, technology and people?

- A. Controls, risk and supervision.
- B. Corporate, governance and control.
- C. Governance, risk and compliance.
- D. Supervision, audit and compliance

### Answer: C

Explanation:

A governance, risk and compliance (GRC) framework is expected to improve efficiency by aligning strategy, processes, technology and people. GRC aims to integrate these elements to achieve organisational objectives while managing risks and complying with regulations.

### Question: 28

Which of the following documents information are relevant to the organization's risk management framework, process, and system?

- A. Reporting and auditing
- B. Recording and reporting
- C. Visualizing and conceptualizing
- D. Rationalizing and reporting

### Answer: B

Explanation:

Recording and reporting documents information that are relevant to the organization's risk management framework, process, and system. These activities help to provide evidence, feedback, learning, and improvement for risk management.

### Question: 29

A broker is undertaking a business interruption review on behalf of a client. This would most commonly include an evaluation of the

- A. effectiveness of a business continuity plan.
- B. effectiveness of risk reserving.
- C. level of risk tolerance.
- D. level of self insurance.

**Answer: A**

Explanation:

A business interruption review is an evaluation of the effectiveness of a business continuity plan, which is a set of procedures and resources to ensure that an organisation can continue its critical functions in the event of a disruption<sup>12</sup>.

### **Question: 30**

Which of the following is the current trend in auditing, risk management and compliance?

- A. Providing assurance over threats
- B. Performing discrete audits in compliance with internal control
- C. Front office function providing leading indicators about risk

**Answer: C**

Explanation:

According to 3, page 6, one of the current trends in auditing, risk management and compliance is âmoving from a back-office function providing lagging indicators about risk (e.g., audit findings) to a front-office function providing leading indicators about risk (e.g., key risk indicators)â.

# SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

*Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:*

**Actual Exam Questions:** *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

**Exam Dumps:** *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

**Practice Tests:** *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

**Guaranteed Success:** *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

**Updated Content:** *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

**Technical Support:** *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
