Question: 172

Hot-water disinfection (high-level disinfection) can kill all forms of microbial life EXCEPT

- A. Mycobacterium tuberculosis bacilli
- B. varicella viruses
- C. the HIV virus
- D. large numbers of bacterial spores

Answer: D

Explanation:

High-level disinfection is effective against all forms of microbial contamination except large numbers of bacterial spores.

Question: 173

When you are caring for more than one trauma patient at a time, you should change your gloves

- A. whenever time permits
- B. for each new patient
- C. for each new procedure
- D. whenever they become soiled

Answer: B

Explanation:

Changing gloves for each new patient contact prevents cross-contamination.

Question: 174

You are interviewing Mrs. Rodriguez, age 87, who called EMS but seems reluctant to state her primary problem. Mrs. Rodriguez speaks English but is answering your questions slowly and haltingly. Her 20-year-old grandson is also present. In an attempt to obtain the necessary information, you should

- A. direct your questions to the grandson only, since Mrs.
- B. ask the grandson to translate for Mrs. Rodriguez
- C. ask questions slowly, clearly, and respectfully, giving Mrs.
- D. stop the interview; Mrs. Rodriguez is probably not ill

Answer: C

Explanation:

Give Mrs. Rodriguez plenty of time to respond, plenty of encouragement, and treat her respectfully.

Question: 175

Which of the following is NOT a characteristic of the typical abused elderly person?

- A. wealthy but refuses to give financial assistance to relatives
- B. has multiple physical and mental impairments, such as
- C. female
- D. over age 75

Answer: A

Explanation:

. The typical abused elder is poor and dependent on the abuser.

Question: 176

Which of the following is an example of acknowledging and labeling the patient's feelings.

- A. Stop threatening me. I've never hurt you.
- B. You seem angry. Do you want to tell me about it?
- C. I get angry myself sometimes.
- D. Anger is a hostile emotion. Let's be more positive.

Answer: B

Explanation:

This is one way to acknowledge what a patient is feeling and to encourage him or her to express those feelings.

Question: 177

You arrive first in ambulance to a suspected radiation emergency. Dispatch has stated that a box containing radioactive material was found left unattended and open in a park. No patients have been identified yet, but the police department is sealing off the area. When you approach the park, the three principles of safety to keep in mind are

- A. time, distance, and shielding
- B. distance, crowd control, and decontamination
- C. decontamination, clothing, and eye protection
- D. gloves, eye protection, and distance

Answer: A

Explanation:

Limit your time of exposure, stay a good distance from the source, and place shielding between you and the source.

Question: 178

You arrive first in ambulance to a suspected radiation emergency. Dispatch has stated that a box containing radioactive material was found left unattended and open in a park. No patients have been identified yet, but the police department is sealing off the area. If you were asked to set up a staging area for further rescue crews, which of the following would be the best?

- A. upwind, close visual range, in an open area
- B. downwind, in an open area
- C. upwind, in a building
- D. downwind, in a building

Answer: C

Explanation:

Upwind in a building helps to provide further shielding from the radioactive source.

Question: 179

You arrive first in ambulance to a suspected radiation emergency. Dispatch has stated that a box containing radioactive material was found left unattended and open in a park. No patients have been identified yet, but the police department is sealing off the area. In the above situation, decontamination of patients would be the responsibility of the

- A. first in ambulance
- B. first in fire agency
- C. hazardous materials team
- D. police department

Answer: C

Explanation:

Decontamination should be performed by specially trained hazardous materials personnel.

Question: 180

You arrive first in ambulance to a suspected radiation emergency. Dispatch has stated that a box containing radioactive material was found left unattended and open in a park. No patients have been identified yet, but the police department is sealing off the area. Which type of radiation is the most serious?

- A. alpha particles
- B. beta particles
- C. gamma rays
- D. delta rays

Answer: C

Explanation:

Gamma rays are the most serious type of ionizing radiation.

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
