QUESTION: 87

The service model most associated with the Process Abstraction and Orchestration patterns in general is:

- A. entity service
- B. utility service
- C. wrapper service
- D. None of the above.

Answer: D

QUESTION: 88

The application of the Contract Centralization pattern requires that runtime access policies be implemented.

- A. True
- B. False

Answer: B

QUESTION: 89

Which of the following statements is false?

- A. The Contract Centralization pattern positions the service contract as the official entry point into the service logic.
- B. The Contract Centralization pattern can impose performance overhead and requires the use of design standards.
- C. The application of the Contract Centralization pattern enables access to underlying service resources through the use of secondary or unofficial technical contracts.
- D. The Decoupled Contract pattern supports the application of the Contract Centralization pattern.

Answer: C

QUESTION: 90

Legacy systems often rely upon a combination of proprietary data models, proprietary data formats, and proprietary transport protocols. For this reason the Legacy Wrapper pattern is often used together with which of the following patterns?

- A. Atomic Service Transaction
- B. Service Messaging
- C. Service Broker
- D. Messaging Metadata

Answer: C

QUESTION: 91

Which of the following statements is true?

- A. The application of the Legacy Wrapper pattern results in the coupling of the service consumer to the legacy resources encapsulated by the service.
- B. The application of the Legacy Wrapper pattern results in the coupling of the service contract to the legacy resources encapsulated by the service.
- C. The application of the Legacy Wrapper pattern supports the Contract Centralization pattern by helping to establish a standardized contract through which to access legacy resources.
- D. None of these statements are true.

Answer: C

QUESTION: 92

The application of the Legacy Wrapper pattern typically results in:

- A. no coupling of the wrapper service logic to the legacy system
- B. no coupling of the wrapper service logic to the service contract
- C. no coupling of the service consumer to the legacy system encapsulated by the wrapper service
- D. no coupling of the service logic to the service contract

Answer: C

QUESTION: 93

Which of the following statements regarding the application of the State Repository pattern is false?

- A. State data can be temporarily written to and then later retrieved from a dedicated state repository.
- B. Caching large amounts of state data in memory negatively impacts scalability.
- C. A state repository is not useful for supporting long-running service activities.
- D. Database technology is typically used for the implementation of a state repository.

Answer: C

QUESTION: 94

The State Repository pattern is one of the core patterns that comprise the Enterprise Service Bus pattern because complex compositions often include long periods of inactivity while waiting for composed services to complete their processing, thereby providing an opportunity to defer state from memory to a state repository.

- A. True
- B. False

Answer: B

QUESTION: 95

A service architecture is most comparable in scope to a traditional:

- A. component architecture
- B. integration architecture
- C. application architecture
- D. None of the above.

Answer: A

QUESTION: 96

A typical service-oriented enterprise architecture specification can encompass:

- A. only one service inventory
- B. multiple service inventories
- C. non-service-oriented technology architectures
- D. None of the above.

Answer: B

QUESTION: 97

One SOA type can inherit the features and limitations of another SOA type with a broader scope. For example, the environment and conventions established by the service-oriented enterprise architecture can be carried over into individual service inventory architectures.

- A. True
- B. False

Answer: A

QUESTION: 98

Each service composition within a service inventory shares the same service composition architecture.

- A. True
- B. False

Answer: B

QUESTION: 99

The scope and size of different service inventory architectures can vary.

- A. True
- B. False

Answer: A

QUESTION: 100

A service inventory architecture is designed to accommodate the composition and recomposition of services.

- A. True
- B. False

Answer: A

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including MCQs, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Exam Questions:

Killexams.com provides exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these questions, candidates can familiarize themselves with the content and format of the real exam.

Exam MCQs:

Killexams.com offers exam MCQs in PDF format. These questions contain a comprehensive collection of questions and answers that cover the exam topics. By using these MCQs, candidate can enhance their knowledge and improve their chances of success in the certification exam.

Practice Test:

Killexams.com provides practice test through their desktop test engine and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice test cover a wide range of questions and enable candidates to identify their strengths and weaknesses.

Guaranteed Success:

Killexams.com offers a success guarantee with the exam MCQs. Killexams claim that by using this materials, candidates will pass their exams on the first attempt or they will get refund for the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exam.

Updated Contents:

Killexams.com regularly updates its question bank of MCQs to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.
